

Air Handlers

HIGHER PERFORMANCE FOR A HIGHER STANDARD
OF COMFORT AND EFFICIENCY.

BUILT TO A HIGHER STANDARD™

American Standard®

HEATING & AIR CONDITIONING

ForeFront™
Platinum Series Air Handlers

Our most innovative offering is also our most efficient. It features a variable-speed motor and integrated humidity control through Comfort-R™ technology, and a uniquely designed cabinet to help prevent energy loss and condensation. Platinum TAM8 and TAM9 models also include advanced communication features for a perfectly optimized matched system.

Platinum
TAM9

RELIABILITY, THROUGH AND THROUGH.

You trust ForeFront™ Air Handlers to fill your home with clean, comfortable air at just the perfect temperature, and that's not something we take lightly.

Platinum

1 Unique Cabinet Design*

Designed unlike any other air handler on the market, so less moisture and fewer dust particles are drawn in from its environment. This double-wall cabinet design also helps prevent energy loss and virtually eliminates condensation.

2 Fully Enclosed Insulation*

A layer of insulation material between its inner and outer walls increases efficiency, while eliminating loose fiberglass insulation that can enter your airstream.

3 Epoxy Coated Coil *

This standard epoxy coated offering is the first of its kind in the industry and helps prevent odor and undesirable residue on the coil.

4 Vortica™ Blower*

Specially constructed for quiet operation, the Vortica Blower also helps reduce your overall energy use and carbon footprint.

5 Flexible Design*

Thanks to its smaller size and easy configuration, more installation options are available throughout your home.

6 Control Board Pocket*

A dedicated slot for the control board protects it from humidity in the airstream and extends its life.

7 Electronic Refrigerant Flow and Regulation*

Refrigerant flow is regulated with an electronic expansion valve for greater system life and maximum reliability.

8 Integrated Drain Pan

Made from rust resistant polycarbonate, this unique drain pan is gently sloped to eliminate standing water.

9 Heating Options

Can accommodate either electric or hydronic heat with no modification to the cabinet.

10 Corrosion Resistant Finish

Thanks to a high quality finish, your air handler will look great for years to come.

Features and components may vary by model and are shown for illustration purposes only.

* Indicates American Standard Heating & Air Conditioning technology you won't find anywhere else.

ForeFront™ Gold Series Air Handlers

The Gold Series isn't just comfortable and efficient, it's innovative too. Unlike any other air handler on the market, the uniquely designed cabinet is insulated between its double walls similar to a refrigerator, keeping insulation out of the air that your family breathes. The GAM5 also includes a high efficiency motor for better performance and efficiency.

Designed for comfort. Built to last.

For more than a century, families have trusted American Standard Heating & Air Conditioning to keep their homes comfortable. Today, our home comfort systems continue to push the boundaries of efficiency and performance, while still delivering on our proud history of quality, durability and substantial value. Welcome your family home to a higher standard of comfort. From American Standard Heating & Air Conditioning.

Run your home from wherever life takes you.

Nexia™ allows you to manage your home remotely using most web-enabled mobile devices.* With just the touch of a button, you can unlock a door or turn on lights for security, or monitor and adjust your heating and cooling from a distance to save energy. Simply put, Nexia™ gives you and your family all the promises of home automation in the most simple and accessible way. All so you can connect with your home, even when you're not at home. Ask your American Standard Heating & Air Conditioning dealer for details.

*Nexia Remote Climate Access is included with the purchase of a connected control. Adding accessories to your Nexia system requires a monthly subscription for remote access via most web-enabled smartphones and computers.

Our dealers will put you in your comfort zone.

Your independent American Standard Heating & Air Conditioning dealer is a highly trained professional with years of experience who'll work with you every step of the way in choosing the system that's right for you – from walking you through the entire purchasing process to conducting an in-depth analysis of your home and your comfort needs. Based on that information, your dealer will recommend a system that works best for your home. After all, the more efficient the system, the more comfortable you'll be.
